We're excited to be offering this purebred Simmental bull in our upcoming 46th Annual Production Sale on March 17th. Pictured at just 10.5 months age, this bull is destined to do great things for its new owner. 186W, his mother has had 7 natural born calves and his granddam, 10H, had 14. That's bred for longevity! Bulls with these types of numbers do not come up for sale every day. Video posted on our Facebook page. Be sure to visit DickinsonRanch.com for a catalog and call with any questions.

**** Dickinson Ranch will retain 50% semen interest**
