Dear Friends,

Welcome to our 40th Production sale. As we come into 2012 with the smallest cow number in history the outlook for calf prices is good for several years. However, we must remember what caused the cow herd to dwindle...High feed costs and high fuel prices. Therefore we need to select genetics that can function on our available resources as much as possible. With this in mind we are really excited about this sale offering.

After an extremely hot and dry summer we have received timely moisture this fall and winter. Although the grass was short it proved to be sufficient for our cattle. The calves weaned off heavy, take note of the weaning weights throughout the catalog. The cows kept their fleshy style also. The bulls and heifers were weaned the first week of November. We fed the calves a protein creep pellet for 90 days prior to weaning where they consumed an average of 3 pounds per head per day. This gave the grass and the cows a little relief in the late summer and fall. After we weaned we continue to feed out of the creep feeders and they consumed 10 pounds per head a day. The bulls are gaining well, and are in great shape, yet they are not over conditioned and will be able to get out and service cows without falling apart. The bulls are designed to be functional. They have optimum growth numbers and carcass traits. We are not selecting for single traits, maximum growth or milk, but cattle that will help you lower your costs and function on your resources.

The Registered heifers are straight off the top. They are big ribbed and very uniform. They are bred to calve without assistance and bring a big calf in at weaning. We will calve the heifers we keep in a 320 to 600 acre pastures and check them once a day. The only supplemental feed they receive is Liquid Loomix through the winter. With fuel and corn at these high prices it is time to buy genetics that can function on low quality standing forage with little supplement. We want to raise cattle that can stay in the herd for 10 to 12 years in order to make a profit. The longevity of our cattle will enable you to sell more heifers and keep less replacement females for more profit to you. This is probably the best set of heifers we have ever offered.

Our customers continue to tell us how pleased they are with their past purchases. Many have done well on the U.S. Premium grid and we are truly excited about their close out sheets. More than that! Our customers tell us every day how good the females work and how the daughters of past sale bulls really hold up and continue to last for them. The first time buyers come back telling they can't believe how our females can lay down and calve and have their calf up nursing while their other heifers are laboring much longer.

How the 2012 Dickinson Ranch Auction will work:

All sale animals will be on display for viewing on sale day. You are also welcome to come to the ranch to view the sale animals anytime in the days prior to the auction. No animals will be brought through the sale ring....rather every lot will sell via a pre-recorded video clip broadcast on TVs placed in the sale ring area. The live audio feed and pre-recorded video clip of each sale animal will be broadcast on DVAuction(www.dvauction.com) for buyers unable to attend the sale. (High speed internet required.) We hope to see you on sale day! If you can't make it to the ranch on sale day we would be glad to help you bid on the phone or you can make arrangements with Kirk for someone to handle you bid. We also will be offering for the first time bidding via the internet.

*Sincerely,
The Dickinson Family*

3. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove that the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of the purchaser, replace the animal with another of equal value or grant the Purchaser a credit on any products marketed by Seller. Either of these options shall be deemed full satisfaction and settlement. IF the Seller proved the animal to be a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expense incurred for transportation. The Dickinson Ranch consulting Veterinarian will make the determination of breeder or non breeder.

RIGHTS AND OBLIGATIONS
